

# RULES TO LIVE BY

To avoid accidents, frequently check for traffic from behind – especially when turning – and use turn signal lights.

1. Check for approaching traffic from behind.
2. Use required extremity lights.
3. Always use your lights and flashers.
4. Your SMV sign should be centered, pointed up, 2-10 feet off the ground.
5. Pull over for traffic, don't motion for them to pass.
